Todd Baggett - December 07, 2016

27

1           A.     Yelling, kicking his feet, spitting.

2           Q.     And how -- how was he -- how was he  
3     kicking his feet if his hands and feet were shackled  
4     behind his back?

5           A.     That's -- the space he had on the chain,  
6     he was kicking his feet back and forth, back and  
7     forth.

8           Q.     I see. And that was a threat, was it?

9           A.     If we unshackled him, those feet would  
10    have been kicking us.

11          Q.     If you un --

12          A.     That's why he was in the four-point  
13    restraints, so he couldn't injure us or the EMS  
14    people on the scene.

15          Q.     So why didn't you turn him over on his  
16    side?

17          A.     He -- actually, one time, they -- he did  
18    turn -- if he let his foot down and turned over on  
19    his side, he could.

20          Q.     He was strapped down with five straps on  
21    to the gurney. Correct?

22          A.     Like I said, at that one point, I went and  
23    talked to his wife. I wasn't there the whole time  
24    when they put him on everything.

25          Q.     You were in the ambulance.

Todd Baggett - December 07, 2016

39

1 proximity to you, were there?

2 A. Just his -- in between his wife and then  
3 the highway, no, sir.

4 Q. So there was nobody else in close  
5 proximity that could have been injured by Mr. Goode.  
6 Correct?

7 A. At the time, we didn't know.

8 Q. Well, you could see, couldn't you?

9 A. Well, if he had a weapon, he could just  
10 start shooting cars. You don't -- you can't ever  
11 tell. You don't know. Until you can check  
12 somebody, you never know.

13 Q. Did you have that fear that he was going  
14 to pull out a gun and start shooting cars?

15 A. With his actions, I had no idea what he --  
16 I didn't even know if he was going to run out in  
17 front of a car.

18 Q. His actions that you're referring to were  
19 running around and mumbling. Correct?

20 A. Incoherently. Yes, sir.

21 Q. Incoherently?

22 A. Uh-huh (affirmative response).

23 Q. He was running in circles up in the  
24 parking lot. That's the conduct you're talking  
25 about?

Todd Baggett - December 07, 2016

41

1 Q. So that's not -- is that considered part  
2 of your report?

3 A. It's a interdepartmental memo.

4 Q. Can you identify the people in this photo?

5 A. I can't tell who any of those people are.  
6 It looks like some EMS staff and fire.

7 Q. So how many fire people are on the scene?  
8 Does each one -- let me ask you this.

9 A. I mean, I can count them on this. If  
10 you're asking me how many was actually there, I  
11 couldn't tell you.

12 Q. Well, I'm asking you in this photo, and  
13 the question better put is, the ones with the patch  
14 on the left side of their shirts, are those all EMS  
15 people or fire people?

16 A. I believe those are just firemen.

17 Q. Okay. And who's the guy in the white  
18 shirt who's pointing?

19 A. That's usually a fire supervisor, I  
20 believe.

21 Q. Who's the guy with the blond hair behind  
22 him?

23 A. I can't tell.

24 Q. Well, he's a very big guy.

25 A. I can't see what -- this whole picture is

Todd Baggett - December 07, 2016

105

1 Q. By this time, there were other officers on  
2 the scene?

3 A. Not down where we were at.

4 Q. Were there other officers on the scene?

5 A. In other places. We were the only two  
6 officers down there with Troy Goode.

7 Q. There were officers all over around this  
8 scene. Correct?

9 A. If you say so. I --

10 Q. No. I'm asking you.

11 A. I -- I don't know. I was focused on  
12 something else at the time. I wasn't worried about  
13 what everybody was doing.

14 I wasn't -- I wasn't looking up trying to  
15 count people in the parking lot while we were  
16 dealing with a suspect.

17 Q. My question was, there were officers,  
18 other officers, besides you and Scallorn, on the  
19 scene by this point in time?

20 A. I have no idea. I was -- I -- I was  
21 focused on what I had in front of me. I wasn't  
22 looking around to see what everybody else was doing.

23 Q. And you say that --

24 A. If I had time to do that, then I had  
25 time -- it was -- I didn't have time.

Todd Baggett - December 07, 2016

106

1 Q. So Officer Scallorn shot Troy as he was  
2 running away. Correct?

3 A. He deployed his taser on Troy as he turned  
4 to run away.

5 Q. Where did he hit him?

6 A. Just one probe hit him in the back. The  
7 other one just shot off somewhere else. Because it  
8 was right up there by Officer Scallorn's foot.

9 So he got hit with a probe. One probe  
10 won't tase anybody. You have to have both.

11 Q. I thought you didn't know anything about  
12 tasers.

13 A. I've been in between handcuffing somebody  
14 when it went off. And if I touched both wires, I  
15 got shocked. If I didn't, I only touched one wire,  
16 I didn't.

17 I know enough to know that I'm not doing  
18 it if they're going to pull that trigger again.

19 Q. So one probe hit Mr. Goode where?

20 A. Somewhere on his back.

21 Q. And he went to the ground?

22 A. He got -- they come out in a coiled wire.  
23 And the coiled wire got wrapped around his feet, and  
24 he tripped and fell. Because he was still doing the  
25 little run around in circle thing.

Todd Baggett - December 07, 2016

107

1 Q. After he got hit by the taser?

2 A. After, before. I mean, it -- his whole --  
3 everything he was doing was erratic. He would take  
4 off running at a sprint, run in circles, take off  
5 running, run in circles.

6 Q. So he was running in circles?

7 A. When I say circles, just like  
8 pitty-patting around, just stepping this way, step  
9 that way, step this way, step that way.

10 Q. When he was running in circles is when  
11 Officer Scallorn tased him?

12 A. He was -- he was running. I don't  
13 remember if he was running in a circle or straight  
14 line.

15 Q. He was up in the grass. Right?

16 A. He was up in the grassy area. Yes, sir.

17 Q. And not threatening anybody. Correct?

18 A. Well, at this point, he had already -- we  
19 already knew we couldn't out -- we couldn't catch  
20 him. And he -- you know, at that point, you know,  
21 what is he going to -- is he going to turn again,  
22 run toward the road? You know, what's he going to  
23 do? We're still having to check for weapons.

24 So at that point, yeah, I -- you know,  
25 after he hit his dog in the head and the dog let go,

Todd Baggett - December 07, 2016

108

1 you know, at that point, you know, is when he  
2 deployed the taser.

3 Q. Your report goes on to say that when Troy  
4 fell on the ground -- that was after being struck  
5 with the taser. Correct?

6 A. The one probe. Yes, sir. It got wrapped  
7 in his feet. That's why he fell.

8 Q. Okay. You placed handcuffs on Troy?

9 A. I got one on him. I couldn't get his  
10 other arm out from under his -- he was laying on one  
11 arm. I couldn't get it out. I had to -- Officer  
12 Rich came and helped me.

13 Q. All right. And so Officer Rich came  
14 and --

15 A. That's when I knew the first officer made  
16 our scene down there when he showed up to help me.  
17 Because he was running down the till.

18 Q. So at the point that you handcuffed Troy,  
19 it was you, Officer Rich and Officer Scallorn right  
20 there in close proximity?

21 A. Yeah. Officer Scallorn was taken out of  
22 the equation at that point.

23 Q. And why was he?

24 A. He had -- because he had to control -- he  
25 had his dog. He couldn't -- he couldn't go and do

Todd Baggett - December 07, 2016

109

1 any -- put hands on. He had his dog.

2 Q. The dog wouldn't stand there upon command?

3 A. While all that strug -- the -- all that  
4 struggling's going on?

5 Q. All right. So -- so at least we've got  
6 you and Officer Rich. Did you put your knee in his  
7 back?

8 A. No, sir.

9 Q. Did Officer Rich put his knee in his back?

10 A. I don't remember him putting his knee in  
11 his back. I think -- because at that point, when we  
12 got him down, I got that cuff on him. He was  
13 kicking. So I got behind him.

14 And I had his -- I got ahold of his feet  
15 and got his legs up and had my knee not with any  
16 weight, just walked up on him so his legs wouldn't  
17 kick out. And Officer Rich, I believe he -- he just  
18 had his -- he either had his hand on his -- like  
19 around his butt so he couldn't roll over, some --  
20 something of that nature. I can't remember exactly.

21 Q. Was he handcuffed behind his back?

22 A. He was.

23 Q. At the point that you grabbed his feet --

24 A. Yes, sir.

25 Q. -- and bent them up? Okay. So you -- you

Todd Baggett - December 07, 2016

110

1 had gotten him handcuffed?

2 A. But he was scooting away from me. He  
3 could get away. He was turning over and trying to  
4 kick all of us.

5 In other words, my knee was sitting there,  
6 but it wasn't putting any pressure. If he pushed  
7 with his legs, his body would move forward. That's  
8 how little pressure was being put on him at the  
9 time.

10 Q. And you were afraid he was going to get  
11 away from you?

12 A. I didn't know what he was going to do. Is  
13 he going to stand up and go run in traffic now? Who  
14 knows.

15 Q. Well, he was on his -- he was on his  
16 stomach. He had two officer there.

17 A. And we didn't even have a -- we didn't  
18 even have a chance there to check him for weapons  
19 because he was struggling so much.

20 Q. I know. He's a dangerous dude. I know.  
21 You have two officers there on him. You've gotten  
22 him handcuffed behind his back. Correct?

23 A. That's correct.

24 Q. And he was still scooting on the ground.  
25 Correct?

Todd Baggett - December 07, 2016

118

1 suspect that yelled and screamed?

2 **A. For that period of time, yes, sir.**

3 Q. You know, he wasn't yelling -- he wasn't  
4 kicking and yelling and screaming erratically before  
5 he was shackled, was he?

6 **A. Yes, sir, he was.**

7 Q. He --

8 **A. Well, the kicking, that's why we had to**  
9 **shackle him because he was kicking us.**

10 Q. He didn't start kicking until you put the  
11 handcuffs behind his back?

12 **A. Because he was standing up. Yes, sir.**

13 Q. And so it was only after you did a  
14 four-point restraint, as you call, that he started  
15 all of this kicking and screaming as you're  
16 referring to?

17 **A. That's -- if he wouldn't have been kicking**  
18 **and would have complied after being handcuffed and**  
19 **wasn't kicking us, there would have been no reason**  
20 **for the leg shackles because we would have had**  
21 **compliance. We would have stood him up, took him to**  
22 **a car, tried to find out what was going on with him.**

23 **But he wasn't compliant. He was totally**  
24 **incoherent. He was trying to kick us. We had to**  
25 **think about the safety of everybody on the scene**

Todd Baggett - December 07, 2016

119

1 including EMS and the fire department.

2 So that's why he was -- we introduced the  
3 leg shackles.

4 Q. And there was no way of lesser force to  
5 restrain his legs? Is that what you're saying?

6 A. The only other way would have been more  
7 force.

8 Q. You couldn't have -- you couldn't have  
9 restricted -- you couldn't have put leg shackles on  
10 him --

11 A. In the front?

12 Q. -- and kept him from kicking? Yeah.

13 A. So he could still kick us? Now he's got  
14 two feet at the same time instead of one foot at a  
15 time.

16 Q. So he was -- he was more dangerous  
17 shackled?

18 A. In the front.

19 Q. In the front?

20 A. He could still kick.

21 Q. All right. So --

22 A. He could have kicked the EMS personnel in  
23 the ambulance. He could have -- he could have --  
24 with him in the front, he could have got up and  
25 started hopping away or trying to move away.

Todd Baggett - December 07, 2016

126

1 where it was just you and Mr. Goode?

2 A. You know, at different times, it was just  
3 me and him in there.

4 Q. But when he was transported into Room 9 --  
5 and you followed. Correct?

6 A. Uh-huh (affirmative response).

7 Q. And you went into Room 9. Correct?

8 A. That's correct.

9 Q. And then did the people who transported  
10 him leave the room, just leaving the two of you,  
11 Mr. Goode and yourself?

12 A. Not at that time, I don't believe. I  
13 think when we got there, a nurse followed in. But I  
14 can't -- I can't remember exactly the series of  
15 events.

16 They were in and out at times. Sometimes  
17 they were in there; sometimes they weren't in there.

18 Q. Did -- did the doctor do anything to check  
19 out Mr. Goode?

20 A. From what I saw, he just talked to him. I  
21 really wasn't -- I mean, that's their specialty.  
22 It's not mine. I can't -- I wouldn't know what he  
23 was doing anyway if he started doing anything.

24 Q. Please understand I'm not asking you for a  
25 medical opinion. I was just asking you what you

Todd Baggett - December 07, 2016

127

1 observed.

2 Did the doctor put a stethoscope on him?

3 A. I don't remember if he did or not.

4 Q. Did they check Mr. Goode's oxygen level by  
5 clamping his -- the device on his finger?

6 A. I -- I didn't see that. No. Not to say  
7 they didn't do it. I -- they -- because I know they  
8 have the little hand-held ones. They could have  
9 done that in the decon room and I just didn't see  
10 it, or they could have done it in that room and I  
11 didn't see it.

12 Q. Well, you know what a heart monitor is,  
13 don't you?

14 A. Yeah. That -- no. He didn't have a heart  
15 monitor.

16 Q. Did not have a heart monitor?

17 A. There was -- I don't know how they -- I  
18 don't know how they would have done it.

19 Q. It was done in the ambulance. Correct?

20 A. A what, now?

21 Q. It was done in the ambulance, his heart  
22 was monitored?

23 A. Only from his -- from what I remember, she  
24 had it on his back.

25 Q. Well, regardless of where it was done, his

Todd Baggett - December 07, 2016

128

1 heart was monitored in the ambulance. Correct?

2 A. She checked breathing sounds. Yeah. I'm  
3 not sure about the heart. You're asking me medical  
4 stuff. I don't do medical.

5 Q. So to your recollection, the doctor did  
6 not put hands on Troy?

7 A. Like I said, I wasn't -- at that point, I  
8 was there waiting for him to get medically cleared  
9 to take him to Desoto County or back to the station  
10 to do a booking.

11 Q. I'm not --

12 A. I wasn't paying attention to what the  
13 doctor was doing.

14 Q. Well, what were you doing?

15 A. I was standing back there minding my own  
16 business in the back of the room up against the  
17 counter.

18 They came in to work. They're the  
19 doctors. I'm not a doctor.

20 Q. Well, your business there was Troy Goode,  
21 wasn't it?

22 A. Huh?

23 Q. Your business being in the hospital was  
24 Troy Goode?

25 A. That's why he was in the hospital.

**Todd Baggett - December 07, 2016**

**130**

1    **didn't -- we didn't even touch him, either one of**  
2    **us.**

3        Q.    Nether one of you touched him?

4        A.    **No, sir. Not in the ambulance.**

5        Q.    Okay.

6        A.    **We're not...**

7        Q.    Now, after -- after the fluid was put into  
8    the IV line by the Baptist nurses, they left the  
9    room?

10       A.    **Correct.**

11       Q.    Between the time that they shot this fluid  
12    into the IV line, they being Baptist nurses, was  
13    there any medical person there before the time you  
14    alerted them that Mr. Goode had stopped breathing?

15       A.    **Now, after he gave it, he said he would be**  
16    **back in about ten minutes till it takes effect, and**  
17    **they left.**

18       Q.    And by -- they didn't come back before  
19    Mr. Goode stopped breathing?

20       A.    **No. I hit the button.**

21       Q.    How many -- was it just one nurse that  
22    injected the fluid into the IV line?

23       A.    **That's correct.**

24       Q.    And so when they walked -- when that nurse  
25    injected and left, what were you doing?

Todd Baggett - December 07, 2016

131

1           **A.     I was just still standing at the back.**

2           **Q.     Were you -- were you able to sit down**  
3 **somewhere, or were you just standing up?**

4           **A.     There was a chair, but it was over on the**  
5 **other side, and I was more comfortable standing with**  
6 **all that uniform. And I didn't really want to sit**  
7 **down. I was still hot from the chasing him down out**  
8 **there in the middle of July. So I just stood at the**  
9 **back of the room.**

10          **Q.     It was very hot, wasn't it?**

11          **A.     It was hot that day.**

12          **Q.     Was it --**

13          **A.     It was cool -- I was able to cool down in**  
14 **the hospital. Finally, it was cool in there.**

15          **Q.     Okay. So while all of the ruckus was**  
16 **going on out there on Goodman Road, the temperature**  
17 **was very -- up around --**

18          **A.     It was hot.**

19          **Q.     -- a hundred degrees?**

20          **A.     It was hot. Yeah.**

21          **Q.     All right. So you're standing in the**  
22 **room, and you reported that you noticed that**  
23 **Mr. Goode had gone still or stopped breathing?**

24          **A.     He -- he was still yelling. Feet were**  
25 **still kicking. And the -- he quit -- at one point,**

Todd Baggett - December 07, 2016

132

1 he had quit yelling, but his feet were still going.  
2 And then his feet slowed down. And I -- when it --  
3 because you could hear the noise of the chain on  
4 the -- you know, the two chains together while  
5 they're moving.

6 Q. Pulling back and forth?

7 A. Exactly. You could hear that noise. And  
8 then when -- when that started slowing down and then  
9 it stopped, I'm like I don't -- this don't sound  
10 right. So I walked up there. And that's when his  
11 face was kind of blue.

12 Q. So what alerted you was the fact that this  
13 grating of the chain had stopped?

14 A. That and his breathing had changed. He  
15 wasn't yelling anymore. So that -- it wasn't -- he  
16 just -- he wasn't yelling anymore. His breathing  
17 changed kind of erratic a little bit.

18 Q. What did you do?

19 A. I walked over to check on him.

20 Q. How did you check on him?

21 A. I went over there, and his face was turned  
22 to the side. I saw his head, and I put my hand on  
23 his head, and it was purple. So I hit the call  
24 button for the nurse.

25 Q. And did the nurse come right away?

Figure 1. Restraint in 'hog-tied' position

**To: Lieutenant Detective Little**

**From: Officer Todd Baggett 1345**

**Date: 07/18/2015**

**Subject: Incident 201500046947**

On Saturday 07/18/2015 I, Officer Baggett, was dispatched to 3451 Goodman Rd E, Rancho Grande, at approximately 1945hrs in reference to a white male and a white female in the parking lot in a disturbance. Dispatch advised before my arrival that the white male was wearing a white shirt and beige shorts and was running west on Goodman Rd. Upon my approach I seen the white male walking back toward the original location. I made scene and spoke with Kelli Denise Goode, W/F, DOB 04/16/1984 5'06" 150lbs social security TN DL# 094155151 and resides at 8239 Still Oaks Cove in Cordova TN 38018. Phone # 901-497-7130. Kelli stated her husband, Troy Charlton Goode W/M DOB 08/21/1984 6'00" 165lbs social security TN DL# 094864372 and resides at 8239 Still Oaks Cove in Cordova TN 38018. Phone # 901-497-4610. Kelli advised that her husband Troy was acting crazy and had dropped 3 to 5 hits of LSD at approximately 1630 or 1730hrs and was not acting like himself. Troy walked to the area where Kelli and I were standing and I asked him if he was ok and he stated no and ran off and was just running around in the parking lot. I attempted to get him to speak to me but he was not acknowledging anyone he was just talking and yelling to himself like he had his own language. Canine Officer Scallorn then pulled up as Troy was running towards Goodman from the parking lot and Officer Scallorn stopped his vehicle and exited and Troy ran up to the passenger rear door and opened the door and Officer Scallorn's

partner exited the vehicle and nipped at Troy and Officer Scallorn grabbed his canine partner and ordered Troy to the ground and Troy turned around and started running. Officer Scallorn then gave the command for his partner to apprehend Troy and Officer Scallorn's canine partner apprehended Troy on the left forearm and then Troy struck the canine and he let Troy go and Officer Scallorn grabbed his partner and gave Troy an order to get on the ground and he started running again. I began to chase Troy and Officer Scallorn told me to stop and his partner ran past me and apprehended Troy on the left arm. The apprehension had little effect on Troy as he just swatted at the canine, so Officer Scallorn deployed his tazer on Troy, but only one probe struck Troy. Troy did trip over the wires from the tazer and fell down and I was able to get handcuffs on Troy with Officer Rich's assistance. Kelli attempted to approach the scene and I advised her to stay back she stated she was recording the incident and I told her to record it from her vehicle and not get any closer. Troy was checked for weapons and his wallet and inhaler were found in his pockets. Troy's wallet was given to his wife and his inhaler was taken to the hospital with him. Kelli was apologetic for Troy's behavior. She stated that he had taken LSD before and had the same reaction. Troy continued to fight with Officers and Officer Bond asked for leg shackles because Troy was trying to kick officers. Officer Scallorn brought Officer Bond leg shackles and Officer Bond placed the leg shackles on Troy. EMS made scene and Troy was transported to Baptist Desoto with Officer Rich and I travelling in the ambulance with Troy. The entire trip to the hospital Troy was muttering incoherently and yelling and answering himself and would not acknowledge anyone in the ambulance and was trying to get out of the handcuffs and leg shackles and was injuring himself in the process. We arrived at the hospital and Troy began to get louder and started cursing and the Emergency Department decided him to move him to the Decontamination room until a room became available. Troy was not aware of anyone in the room he was just yelling and cursing and aggressively attempting to escape the handcuffs and leg shackles. Troy was later moved to room 9 his yelling and attempts to escape his restraints continued. We arrived in room 9 and Troy continued yelling and trying to get out of the restraints. Troy was spitting on the gurney and yelling incoherently. The doctor came into the room and

**attempted to speak with Troy. Troy appeared to have no idea he was in the room and did not acknowledge the doctor. The doctor spoke with the nurse briefly and both left the room. Troy was still yelling and trying to escape his restraints. I asked the hospital employees about the soft restraints and they advised they would not hold him due to the way he was acting. Two nurses came back into the room and put medication in his IV line. One nurse left and the other said he would be back he had to let the medication take effect. Troy was still yelling, screaming, and trying to escape his restraints.**

**Approximately 10 minutes after the nurse left Troy began to settle down. I noticed his breathing changed and was erratic. I walked over by him and moved his head and his face was purple. I pushed the nurse button and walked into the hallway and the nurse replied on the intercom and I told her that the patient was not breathing. She advised she would send someone and a nurse came to check him and called for a crash cart. I took the leg shackles and handcuffs off of Troy so the medical personnel could give life saving care to Troy. I stepped out of the room as the room filled with medical personnel. I contacted Lt. Wood and advised him of the situation and he arrived shortly afterwards.**

**I was informed later by hospital personnel that Troy was deceased. Detective Rosenberg and Detective Lieutenant Little made scene and took photos. Jeff Pounders, corner, made scene.**

Narrative Information

On 07/18/2015 I, Officer Baggett, was dispatched to 3451 Goodman Rd E, Rancho Grande, in reference to a disturbance in the parking lot. Dispatch advised that a white male in a white shirt and beige shorts was running west on Goodman Rd. I approached the area and the white male was walking back towards the parking lot.

I arrived on scene and spoke with Kelli Denise Goode, W/F, DOB 04/16/1984 5'06" 150lbs social security # and resides at 8239 Still Oaks Cove in Cordova TN 38109. Phone 901-497-7130.

Kelli advised me that her husband, Troy Goode W/M DOB 08/21/1984 6'00" 165lbs. social security # and resides at 8239 Still Oaks Cove in Cordova TN 38109. Phone 901-497-4610.

Troy was not himself and had dropped 3 to 5 hits of LSD between 1630hrs and 1730hrs. Kelli stated that they were going to the Wide Spread Panic concert at the Bank Plus Arena and Troy took the LSD before going to the show. She stated some guy gave/sold him the LSD.

Troy began to approach us and I asked him if he was ok and he said no and began running around in the parking lot. He was yelling and talking to himself.

Troy started running towards Goodman Road and K-9 Officer Scallorn stopped his patrol vehicle on Goodman Road and exited his vehicle and Troy ran to the passenger rear door and opened the door. Officer Scallorn's K-9 partner exited the

## Incident Report

vehicle and nipped at Troy and Officer Scallorn grabbed his canine partner and ordered Troy to the ground and he would not comply. Officer Scallorn then sent his canine partner to apprehend Troy. Troy was apprehended on the left arm and Officer Scallorn's partner let go of the bite and Officer Scallorn again told Troy to get on the ground and he began to run again and I started chasing Troy and Officer Scallorn advised me to stop and his canine partner apprehended Troy on the left forearm and Officer Scallorn deployed his Tazer at Troy, but only one probe struck Troy. Troy fell on the ground and I placed handcuffs on Troy and Officer Rich made scene and assisted me with handcuffing Troy.

Troy continued to fight with Rich and I while he was on the ground and was attempting to kick officers and Officer Bond requested leg shackles and Officer Scallorn handed leg shackles to Officer Bond and Officer Bond placed the leg shackles on Troy to prevent him from kicking at Officers.

EMS arrived and transported Troy to Baptist Desoto and Officer Rich and I rode in the ambulance with the EMS staff and Troy. Troy was yelling a screaming the entire way in the ambulance. Most of the yelling was incoherent mumbling.

We arrived at the hospital and Troy continued to yell and would not answer to his name or acknowledge anyone. Troy was being so loud in the Emergency Department they had to place him in the decontamination area until they could get a room ready.

Troy was moved to room 9 and continued his behavior. The doctor came in and Troy did not acknowledge him or anyone in the room. His nurse left the room and returned and administered some fluids in his IV line and left the room to give the medicine time to take effect. Troy was still yelling and moving and jerking heavily and approximately 10 minutes later he got quiet and I heard him breathing erratic and walked over to him and he looked purple and I moved his head and noticed he was no longer breathing. I pushed the nurse button and looked into the hallway and the nurse replied on the intercom and I advised her that the patient was not breathing and a nurse came in the room and called for a crash cart and I took the shackles and handcuffs off Troy, so the emergency department could work on Troy. I contacted Lt. Wood and advised him of the situation.

I was later told by hospital personnel that Troy was deceased. I started a crime scene log sheet.

Corner Jeffery Pounders made scene and Troy was turned over to the Corner.
